“ After a 2-year university course (IUT) in Logistics and Transport Management and a Bachelor's Degree in Marketing, I completed a year in Australia before joining the IAE Aix-Marseille. I chose this institution for several reasons: its tuition costs, 2 to 3 times lower than a private management school, its international dimension and its international accreditations. At IAE, I enjoyed the various projects in group, with classes composed of many foreign students, it was very rewarding. I also appreciated the human size of the school.

I completed 2 internship during my master for Gemalto and Ubisoft in Supply Chain and Purchasing service. These experiences helped me to find VIE opportunity in Asia, I am working now in Shanghai for an American company specialized in logistics.”
